

05-16-2000 Malaysia – Idris Ahmad – FF PSD Net Clearing

Idris Ahmad

Paraphrased from the newspaper report:-

“Another diver from the Fire and Rescue Services Department's scuba diving unit disappeared this morning during a search operation for a colleague who had gone missing since Monday around the waters of Pulau Lalang and Pulau Saga.

The diver, identified as Mohd Nor Harun, in his 40s, is feared to have suffered a similar fate as his colleague, Idris Ahmad, 36. Idris was believed to have drowned while clearing the waters of discarded fishing nets. A police spokesman said the incident occurred about 11.30am today when the diver failed to surface for a break.

His body was found by fisherman 3 days later. 40 divers were taking part in the search. Another diver became unconscious during the search and was admitted to the armed forces hospital at the Lumut naval base”.
